

A Milestone Achieved:

2 Million Wheels Assembled in 2025

UAM Philippines, Inc. marked a significant manufacturing milestone in 2025 with the successful assembly of 2 million wheel units, reflecting the company's strong commitment to quality, efficiency, and continuous improvement. This achievement highlights the collective effort of employees across all departments who consistently uphold high production standards while meeting customer expectations.

Reaching this milestone is a testament to UAM Philippines, Inc.'s well established processes, disciplined operations, and focus on precision manufacturing. Through careful planning and adherence to safety and quality standards, the organization was able to maintain stable production while consistently delivering reliable wheel assemblies.

Quality in Every Wheel

Effective teamwork played a key role in this achievement, as employees across all departments collaborated closely to meet targets and uphold high standards. Each assembled wheel represents the dedication, skill, and collective effort of the workforce working together toward a common goal.

Beyond the numbers, this accomplishment underscores UAM Philippines, Inc.'s culture of collaboration and excellence. Achieving 2 million wheel assembly units in 2025 serves as both a proud moment and a motivation to continue improving, innovating, and delivering products that meet global standards. As UAM Philippines, Inc. moves forward, this milestone stands as a strong foundation for future growth and continued success.
